Botulinum Neurotoxin for Head and Neck Disorders

By Andrew Blitzer

Thieme Georg Verlag Apr 2012, 2012. Buch. Book Condition: Neu. 263x189x23 mm. Neuware - Containing detailed injection instructions, Botulinum Neurotoxin for Head and Neck Disorders and the associated how-to videos offer otolaryngologists head and neck surgeons, neurologists, pain specialists, facial plastic surgeons, and others a complete guide to the management of motor, sensory, and autonomic disorders of the head and neck region with botulinum neurotoxin. It covers treatment methods for conditions ranging from hyperfunctional motor disorders (dystonia, tremor, dysphagia), to afferent pain disorders (temporomandibular joint disorder, migraine, trigeminal neuralgia), to autonomic disorders (hypersalivation, Frey s syndrome). In each of the indications, the written material reviews the effects of the toxin on the nervous system, central pain thresholds, and central motor pathways. Special Features: Reviews the pharmacology, indications, mechanisms of action, and technique for each use of botulinum neurotoxin Provides detailed information on the anatomy, treatment methods, follow-up care, and possible complications for each disorder Includes online access to professionally produced videos in which Dr. Blitzer demonstrates injection techniques for the disorders discussed in the book Contains vivid, full-color illustrations and photographs that clarify information in the text Focusing specifically on injection techniques for the therapeutic uses of botulinum neurotoxin for...
