Audible Studios on Brilliance, 2016. CD-Audio. Condition: New. Unabridged. Language: English . Brand New. How did the New Testament writers and the earliest Christians come to adopt the Jewish scriptures as their first Old Testament? And why are our modern Bibles related more to the Rabbinic Hebrew Bible than to the Greek Bible of the early Church? The Septuagint, the name given to the translation of the Hebrew scriptures between the third century BC and the second century AD, played a central role in the Bible's history. Many of the Hebrew scriptures were still evolving when they were translated into Greek, and these Greek translations, along with several new Greek writings, became Holy Scripture in the early Church. Yet gradually the Septuagint lost its place at the heart of Western Christianity. At the end of the fourth century, one of antiquity's brightest minds rejected the Septuagint in favor of the Bible of the rabbis. After Jerome, the Septuagint never regained the position it once had. Timothy Michael Law recounts the story of the Septuagint's origins, its relationship to the Hebrew Bible, and the adoption and abandonment of the first Christian Old Testament. The accompanying reference guide is included as a PDF on this disc.
