*This publication may be worth purchasing. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.*

The under girding of mastering any thing is the ability to identify, embrace, and enhance that which is extraordinary within us. As young children we know that but as we get older, we forget, life happens, and our awesomeness seems to disappear from us. Yet on occasion it arises within us, and we are astounding that it is still within us. This workbook helps us identify those moments, create more of them, and live from them. Thus we learn we have the grit to master the work and life that is before us. We are in fact extraordinary. We now remember our inner greatness, and we can embrace it, and achieve that which we are meant to do.
