gamma irradiation
Quality control and shelf life extension

LAP Lambert Academic Publishing Jul 2015, 2015. Taschenbuch. Condition: Neu. This item is printed on demand - Print on Demand Neuware - Cucumbers (Cucumis sativus L.) belongs to the family of cucurbitaceae. It is an economically important vegetable crop cultivated in over 80 countries with more than 66 million production annually. The current study involves the use of gamma radiation to enhance the shelf life of cucumber. For this purpose, cucumber sample was subjected to Co-60 gamma irradiation at different...
