American Mathematical Society. Paperback. Book Condition: new. BRAND NEW, Factorizations in Local Subgroups of Finite Groups, G. Glauberman, This monograph focuses on progress in the study of Sylow subgroups and their influence on the structure of the group as a whole. This research has been applied to other areas of finite group theory, including classification of simple groups, but is also of independent interest and does not require extensive background or long proofs. In 1969, the author gave a report..
