CAN WE SAVE AMERICA?

Createspace Independent Publishing Platform, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.The United States is in trouble and there is still time to do something about it by re-reading the Constitution and doing what it says. We need to reinforce our moral compass, place responsible limitations on greed to allow our Republic to grow, reduce the immigration flow until jobs can support entry, promote country pride, and eliminate poverty slavery by redirecting handouts to assistance for jobs. None of these things are easy, but without them our country will soon end as we know it. Conversion for government giveaways to government tax reductions for hiring and training and limitations on monopoly and oligopoly consortiums that blow up pricing and eliminate competition must be halted, Finally, we have to change our schools, what they are teaching, and their government destructive agendas. We have slipped for first to last in our capability to train our children and all the while we have pumped more and more money into a useless attempt to make a badly broken system work. There is a lot to do and this book begins to crack open the festering dilemma with some down to earth methods for saving America.
