Createspace, United States, 2011. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.There are about three million new college every year. College is expensive; it is traumatic for the adolescent who doesn't know what to expect, and for their parents faced with horrendous costs to students and unsure if this college, or any college, is the best choice. **Cutting College Costs And Other Good Ideas for College Students** is written to reduce the anxiety of both parents and new college students. The book's emphasis is on reducing the cost of college. While financial aid of various sorts is available and is discussed, the book emphasizes other ways to control costs. It also covers virtually every aspect of college from selecting the right school to dealing with the first year's experience, and, eventually, dealing with the college's placement office. This 42,400 word book begins with high school and explains how the AP and CLEP programs can earn college credit and thereby save money. Is special coaching to improve entrance exam performance worthwhile? How do you select a school likely to welcome you? The powerful college marketing process is examined and some reality about what to expect on your campus visit is provided. The college ranking industry is questioned. The pros and cons of an Ivy League education are discussed. Proprietary colleges and their problems are highlighted as are the variety of online and hybrid online courses. Saving money by beginning at a community college and then transferring to a four year school is explored, as is living at home and commuting, with the inherent problems and benefits of these routes. The difference between colleges and universities is described, giving attention to the advantages and disadvantages of school...
